## Reproductive Science

**A UKAS accredited proficiency testing provider No. 8228**

We are pleased to announce that UK NEQAS for Reproductive Science has been accredited by UKAS to ISO/IEC 17043:2010 standards.

This means we can demonstrate our competence with a set of internationally-recognised requirements for the planning and implementation of proficiency testing programmes.

We are very pleased about this and hope it will lead to more laboratories selecting us as their EQA provider.

Established in 1993, UK NEQAS Reproductive Science is based at Central Manchester University Hospitals NHS Foundation Trust, one of the largest Hospital complexes in Europe.

Further information about our accreditation with UKAS and ILAC (the international body) can be found on the UKAS website <https://www.ukas.com/about/about-accreditation/a-global-network/ilac/>
